

## HERO 2 - PICK AND PLACE

### MAIN ADVANTAGE

Perfect for an ultra-sanitary environment to move unwrapped or wrapped food products.

### FEATURES AND USES

Automated system initially created to move different sizes of packages of food products (150gr / 175gr / 500gr) in 2x3x2 cardboard boxes for 150gr and 175gr and 2x3x1 for 500gr. It can also move packaged and unwrapped products up to 1.5kg / 2kg.

The cage, in stainless steel, is completely open with a minimum of horizontal surface to avoid all types of deposits, cleaning and maintenance are thus facilitated.

### IDEAL FOR SECTORS

- Meat and Poultry,
- Fish and Seafood,
- Cheese,
- Prepared meals.
